EXPERIENCE

PRODUCT MANAGEMENT Experience Product Manager Intern, HP Inc. Vancouver, WA. | May 2024 - Aug 2024

- Delivered a comprehensive plan for a new digital mobile product by identifying value gaps in the mobile printing experience—complete with business case, user research report, demo video, and market analysis. My role consisted of deep market and user research conducted as part of the Home Solutions Print team, uncovering opportunities to introduce new products and experiences into home printing.

RESEARCH Aerial Imaging of Ancient Greek Marble Quarries. Willamette University Department of Archeology | American School of Classical Studies, Athens, Greece. Jan 2022-Nov 2022

- Developed an interactive 3D model that advanced archaeological understanding of Mt. Pentelikon and the Aspra Marmara quarries in relation to the Parthenon. This was achieved through in-depth aerial, topographic, and volumetric analysis of ancient marble quarries, including flight path design and data collection oversight.

CONSULTING Community First Solutions Sustainability Strategy Consultant. Willamette University | Atkinson Graduate School of Management, Salem, OR. Jan 2024-May 2024

- Enabled Community First Solutions (CFS) to identify sustainability opportunities and funding sources for current and future Secure Residential Treatment Facilities through a detailed report and grant database. This outcome was driven by thorough market and industry research aimed at supporting long-term sustainable development.

MARKETING Willamette University Tennis Social Media Director. Salem, OR, Sept 2021-Present

- Achieved a 792% increase in timeline interaction, 570% more total posts, and nearly 30% growth in average likes within one year by managing all social media content for Willamette University Tennis. Created high-quality, engaging edits using Adobe Express to promote team news and amplify small-sport athlete visibility.

SKILLS & INVOLVEMENT
